Foreword

In this, the 1924 Ranger, the Tuff Kutts present for your pleasure, the summary of a year of work and play at Northwestern.

To those who have gone before, may it be a reminder of their own happy days spent within the college. To those who are here, may it prove an inspiration to make the next year the greatest in the history of the college. To those who have not as yet resided within the gates as students, may it give you a correct impression of Northwestern, her work and ideals.

And to you who have helped to make this publication possible, may your pleasure in the success of the book be your reward.

three

Dedication

To us he is "Percy." And tho he is listed in the catalogue as Professor S. C. Perceful, A. B., A. M., Dean of the College, what means infinitely more to us is that he is also "Dean" of the Tuff Kutts. A wise counsellor indeed; a friend to every student; a real booster for the school—the most that we can say for him is that he is a true Ranger. And the Tuff Knutts take great pleasure in dedicating the 1924 Ranger to our friend and sponsor, Dean Perceful.

THE RANGER

DEAN SABIN C. PERCEFUL

8ve

OUR PRESIDENT

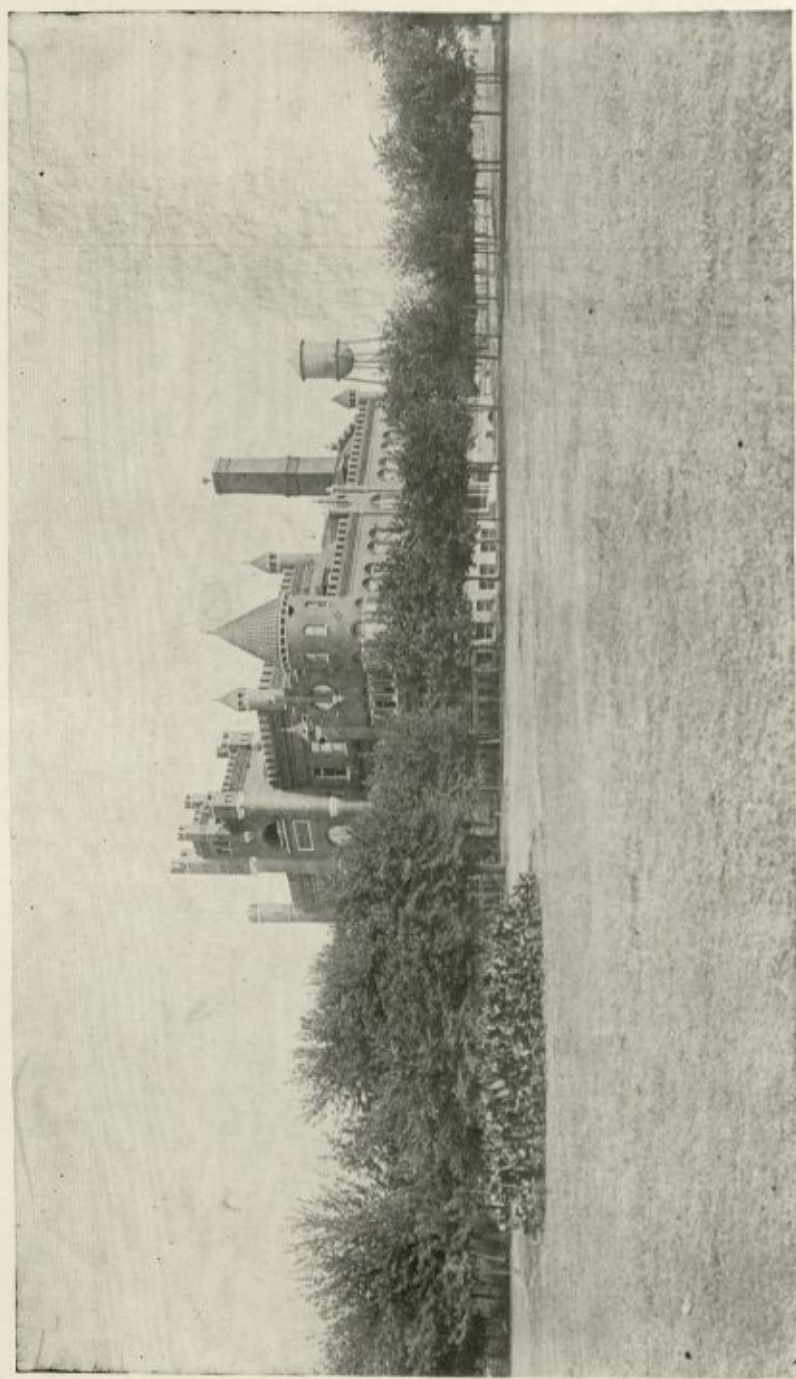

With the close of the school year 1923-24, Northwestern will have finished her fifth year under the administration of J. P. Battenburg. Five full years. Years filled with achievement, and years which comprise the most prosperous period in the history of the college. A brief period, as time is reckoned, but a long period when the years in question form the best part of a man's life. But if they have been prosperous years for Northwestern, surely they have been no less satisfactory to the giver. For deeply engraved on the heart of every student who has entered the doors of Northwestern during his administration, is a love for the man who has been the chief factor in the remarkable growth and development of the college. A leader, a booster, and a true gentleman, is his rank in the school. May the succeeding years with Mr. Battenburg at the helm of Northwestern be even more successful than those which already stand to his credit in the ledger of Life.

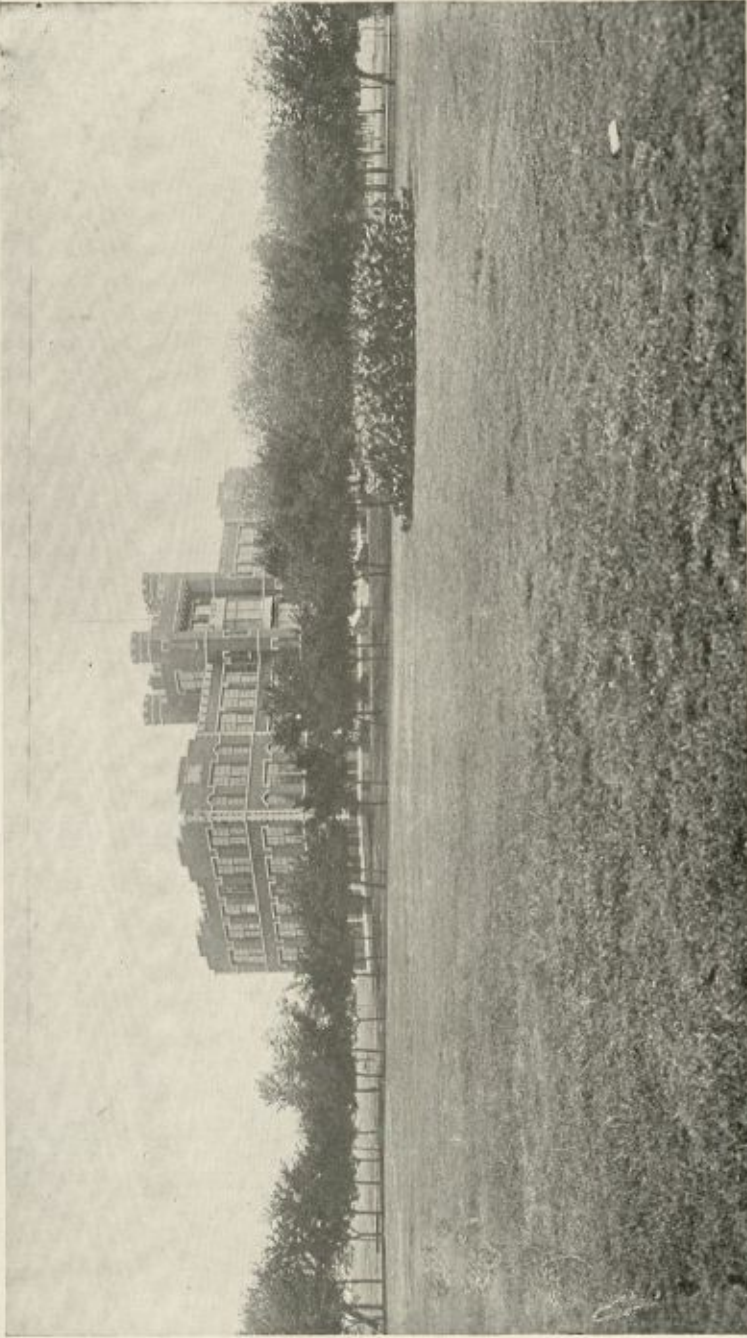

PRES. J. P. BATTENBERG

ADMINISTRATION BUILDING

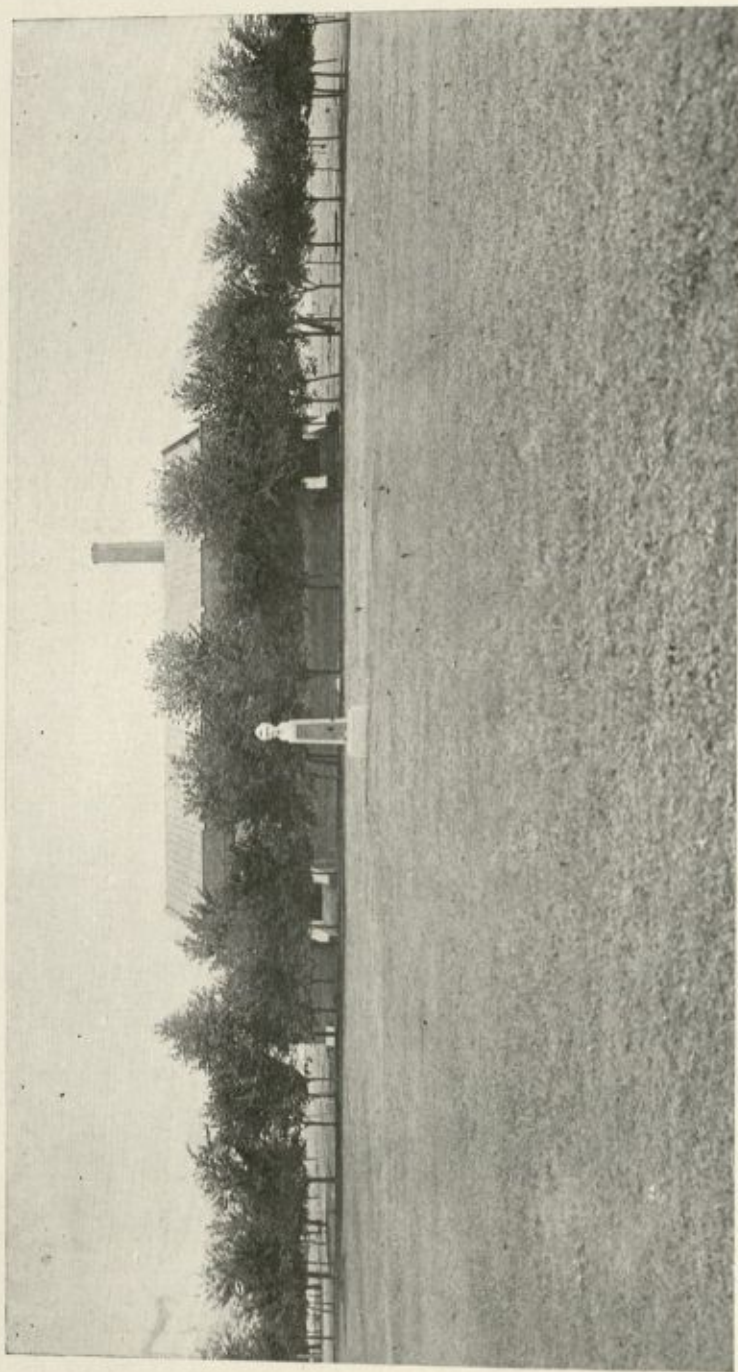

SCIENCE HALL

THE RANGER

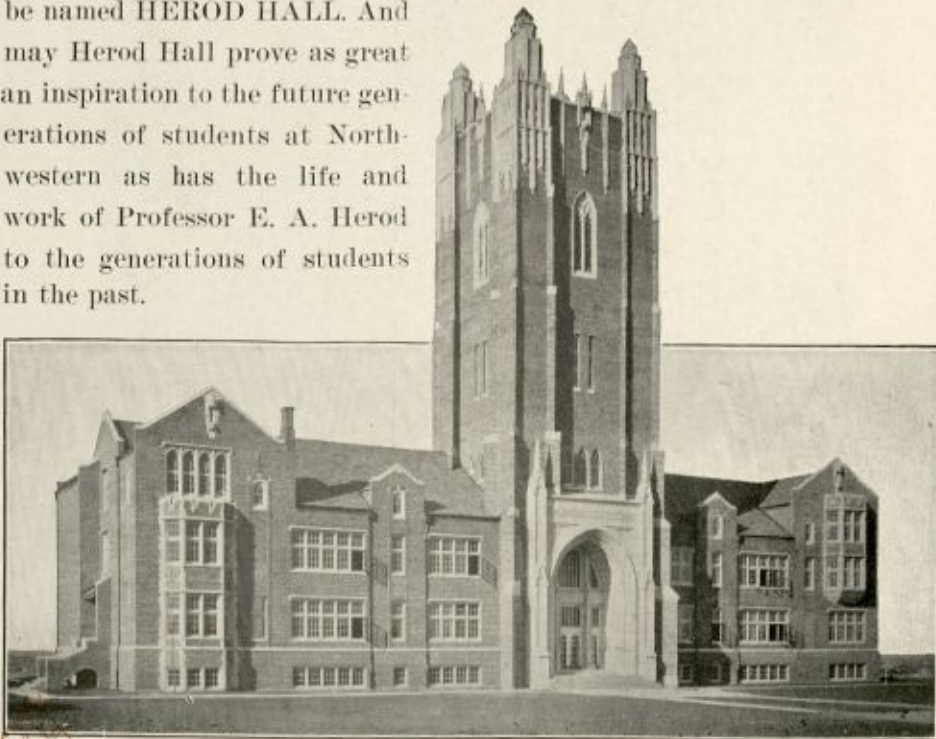

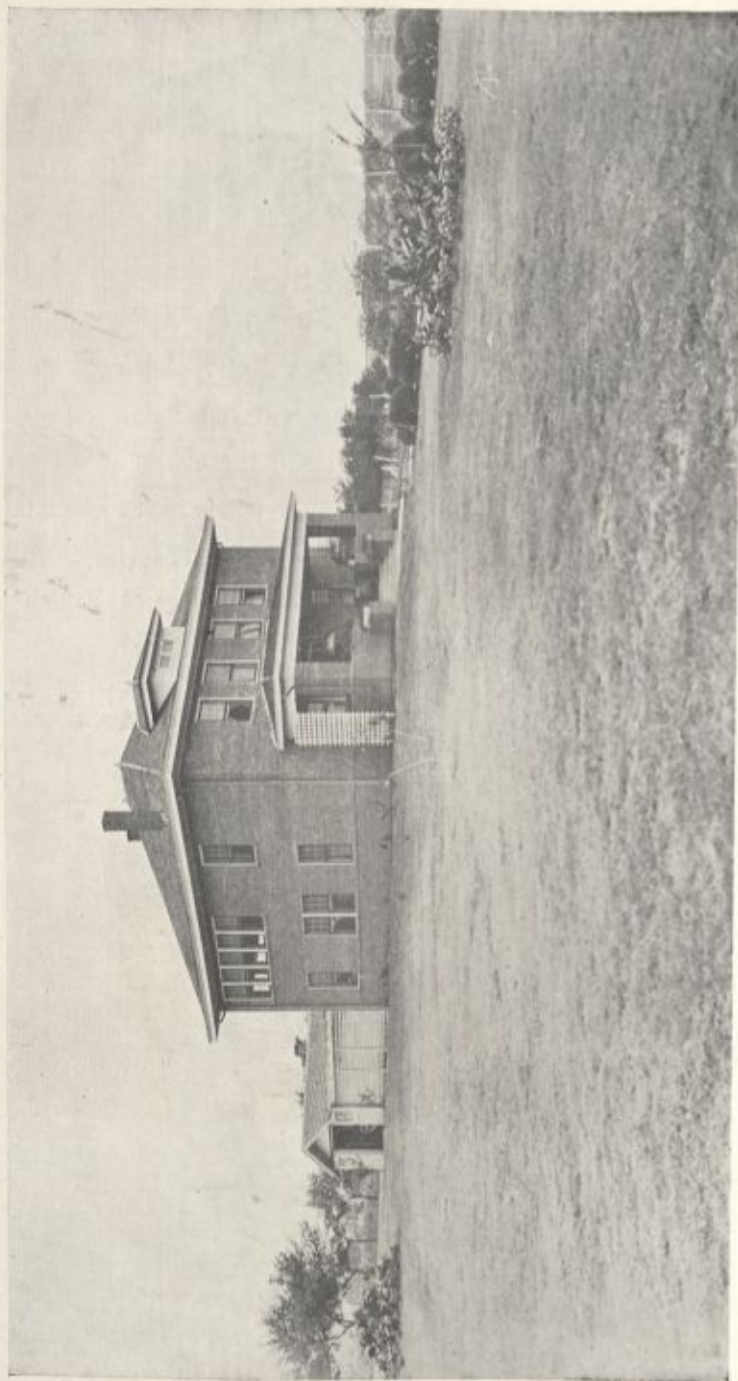

WYATT GYMNASIUM

HEROD HALL

Where for a decade a statue of Abraham Lincoln has stood, an inspiration to the seeker of knowledge, soon a beautiful new building will rear its tall spires and proud towers far up above the majestic elm trees into the blue Oklahoma sky. Another great step in the steady, unceasing progress of Northwestern. And it is fitting indeed that such a step should be signalized by honoring a faithful and untiring servant of the institution. A servant who has given the best years of a busy life toward promoting the interests of the college. A life which has been an inspiration to every student who has entered Northwestern's doors. Although his name will live in the hearts of those who have been so fortunate as to have been enrolled in his classes, it is also to be immortalized in the name of Northwestern's splendid new auditorium. Fitting indeed that the structure should by unanimous verdict of the student body, be named HEROD HALL. And may Herod Hall prove as great an inspiration to the future generations of students at Northwestern as has the life and work of Professor E. A. Herod to the generations of students in the past.

SENIORS

CLASS OF '24

Northwestern grants degrees to forty students this year —by far the largest class in the history of the college. Aside from adding laurels to the school as a body, individual students of the organization have done much to add distinction to the class itself. A glance through the pages of the 1924 Ranger is sufficient proof that members of the class are leaders or participants in every phase of student life within the college, athletic, social and literary.

The class is composed of students from almost every section of Northwestern's territory, representing the highest type of citizenship in this part of Oklahoma. Fine, full blown specimens of Oklahoma's young manhood and womanhood they are sure to be an asset to any community in which they carry their profession.

FOOTBALL

WYATT

To those who have "played the game" in any of the many branches of athletics during their career at Northwestern, the name "Ranger" would mean nothing, did they not know that Prof. F. S. Wyatt were still putting the same old love of the game and of good sportsmanship into the teams that he has instilled into athletic teams of Northwestern for eighteen years.

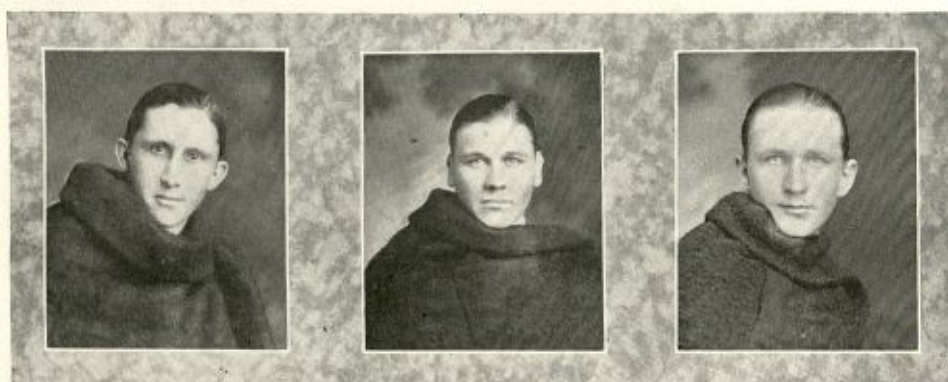

Eighteen years the athletic mentor of Northwestern! Eighteen years one of the foremost figures in Oklahoma athletics! Eighteen full years! Years in which he has produced many winning teams in the various branches of athletics sponsored by the school. He is nationally known as an athletic director.

He might well be called "the father of athletics in Northwestern Oklahoma." For not only has he assisted in developing athletics in the high schools of the section through actual personal contact, but members of Ranger teams have been coaching these same teams for over a generation, carrying the knowledge that they received here to those who may eventually come here in later years.

Years of active coaching have kept him in perfect health. His strength is a marvel to young men who go out for the teams, when he shows them just how a certain play is made, illustrating it himself.

His name is synonymous with Northwestern athletics. He is indeed the "grand old man of Ranger athletics." May his work go on.

CAPTAIN BENNETT finished his fourth year of football with Northwestern this season. Bennett was clever, strategic, heady, an accurate passer and knew the game as few other men knew it. He was the oldest man on the team in point of experience and did good work all year. He lives at Alva. Height 5 ft. 8 in. Weight 140 lbs.

PAYNE KORFF'S pass snatching ability and stubborn defensive play won him an end position before mid-season. Korff could catch any kind of a pass and never dropped one all year. His tackling was hard and true. He lives at Capron and is a first year man. Height 5 ft. 9 in. Weight 170 lbs.

JOHN BUCKLES, of Cherokee, fought so hard and so faithfully that he was given a place at center. Buck took his football seriously and did splendid work against Phillips. He used a nice spiral pass that worked well against the wind. Height 5 ft. 10 in. Weight 170 lbs.

MIDDLETON, Captain-elect and Northwestern's mighty linesman was chosen as All-state guard and starred in every game he played. "Mickey" never quit fighting and spurred the team on both by action and word. He is playing his first year of college football and lives at Carmen. Height 6 ft. Weight 190 lbs.

MARK ALDEN, the kid member of the team, played halfback and played it well. Mark could throw a ball like a bullet, was a fierce tackler and always gave his best in a game. He lives at Alva and has five more years to smash lines. Height 5 ft. 10 in. Weight 160 lbs.

DEWEY RANCK, of Gage, a first year guard, was a bulwark on defense and generally held his own with his opponent. Ranck always kept a mental jump ahead of the other man and was a good blocker and hole-opener. He never worried about anything. Height 5 ft. 10 in. Weight 185 lbs.

LANCE EUBANK, who alternated at both tackle or end, showed that he will be good for many seasons yet. Lance was a sure, hard tackler and was good at diagnosing the opposing team's play. He is a first year man and calls Cherokee his home. Height 5 ft. 10 in. Weight 180 lbs.

CHARLES BAKER, of Lambert, bumped 'em off at tackle. He was good on opening holes and was an adept at blocking. Baker was the best natured man on the squad and was never happy unless he could do all the talking. He is a college junior and has one more year to play. Height 6 ft. 2 in. Weight 180 lbs.

"FAT" BALLARD, 235 lb. guard, never saw a football until he came to Northwestern. He soon learned to use his weight to good advantage and after a game or two could hold his place with the best of them. Opposing linesmen sometimes went over him or around him but never through him. He hails from Gage, is a first year man and is 5 ft. 9 in. tall.

"SLIM" TARRANT, All-Northwestern center in 1921, alternated for the Rangers at center and tackle. Once he got his long arms round an opponent that opponent stopped. Hard to take off his feet. Height 6 ft. 2 in. and weight 180 lbs. His home is in Jet and he has three more years to smash lines.

TOM ABOUD, from Carmen, did not break in with the regulars until late in the year. His position was tackle and he played brilliantly in the game against Ada Thanksgiving. Height 5 ft. 11 in. Weight 185 lbs. Abboud is a first year man.

EDWARD OAKLEY, although inferior in height, made up for it with his rugged defensive play and fighting ability. Like Abboud, he did not break into very many games but his work was good when he did play. He is a first year man, lives at Lambert, weighs 165 lbs. and is 5 ft. 7 in. tall.

TRACK AND FIELD

Track athletics flourished this year at Northwestern for the first time in many moons. Some of the men started work as early as Christmas and worked faithfully until May. Others didn't turn out until the spring term but made excellent progress from then on.

The team's first meet was a triangular one with Phillips U. and Central at Enid in April. Although the Rangers placed last they managed to take four first places and two thirds. Captain Harold Keith easily took first in mile and two mile, Ray Rout sprinted to victory in the hundred yard dash, while Merritt La Grone took the broad jump with a mark of 21 feet 7½ inches. Middleton won third in the hurdles and Gindlesburger third in the pole vault.

A dual meet was lost to Southwestern in early May, Northwestern taking but eight men for the meet. Despite the fact that Rout, La Grone and Elmore did not go the squad did well. Keith again took the mile and two mile while Middleton was high point man for the Rangers with eleven points, winning first in the low hurdles and getting second in the high hurdles and javelin. Hill won second in the half, Gindlesburger second in the pole vault and Ewbanks won the discuss throw.

At the time this goes to press the team is hard at work preparing for the state meet at Norman May 16th. Coach Wyatt is going to take six men to this meet in an effort to bring the state intercollegiate championship to Northwestern. The men who make up the trip will be chosen from the following:

Keith, Rout, La Grone, Middleton, Gindlesberger, Hill, Elmore, Kramp, Davis, Pennington, Ewbanks, Buckles, Jacobs, Stoner and McGlasson.

DEBATE

Northwestern's Debating Honor was successfully upheld this year by Derrel Smith, Captain, and Marcus Webster, affirmative, and C. Glenn Sherman, Captain, and Orville Cameron, negative on the following question: "Resolved, that the United States should use its best efforts to promote the establishment of a World Court as suggested by the Late President Harding."

Smith and Webster defended the question on Southwestern's floor, while Sherman and Cameron argued on the home floor. Both presented strong argument contained in well prepared speeches. Much of their success, in as much as this was the first debate for three of the men on the team, is due to the able coaching of Professor Reynolds, for the affirmative and Professor Wood, for the negative.

The Staff of the 1924 Ranger has now finished its work—real work it has been—but not without some pleasure and satisfaction. We realize that the faculty and student body want an annual that will be a credit to this institution. We have endeavored to fulfill their desires and hope we have not failed.

It would have been impossible, however, to have published an annual had it not been for those who have worked without honor. By this means we wish to express our appreciation to all who have assisted in compiling this book.

To Miss Butler and the Art Department we wish to express our appreciation for their attractive art work and helpful suggestions.

To the students and people of Alva who have shared a portion of the finance of this book we wish to express our gratitude and appreciation.

To the entire staff we wish to express our thanks for their faithful and untiring work.

DEGREE CLASS OF '24

HIGH SCHOOL CLASS OF '24

P. D. C.

ORGANIZED 1900—NORTHWESTERN

Rounding out it's twenty fourth year this spring, the Parliamentary Debating Club, next year, will celebrate it's quarter century anniversary. The club, the oldest student organization in the college, was formed in the fall of 1900, by a group of young men desiring to attain further proficiency in the arts of public speaking and argumentation, to promote the welfare and popularity of these arts in the college, and to create a fraternal spirit among men of the school who were interested in studying the power of speech. To that dedication the club has remained faithful during its existence, and through close adherence to the ideals set forth in the preamble, the organization has attained an enviable reputation as a training school for debaters and speakers.

Although losing a large number of men this year, through graduation, the club will begin work promptly next year, with the opening of college. The twenty-fifth year should mark a golden era of progress for P. D. C.

N. S. N. DEBATE CLUB

The N. S. N. Debate Club was Organized in 1907, for the double purpose of developing the ability to address public meetings effectively, of furnishing it's members with an opportunity for training in debate. The second part of this aim having in view the preparation of it's members for coaching debate teams in the schools in which they expect to teach.

The officers for the year are as follows:

FALL TERM 1923

Pres.....	Arthur Miller	Reporter.....	Elmer Brinker

In 1922 a group of Northwestern girls perfected an organization, the object of which was to encourage interest in debate, and The Phil-erian Girls Club soon proved its right to exist.

The Club has been successfully represented on the Triangular De-bate Teams as well as in other inter-collegiate debates. Five of our girls are members of the Honorary Forensic Fraternity—Pi Kappi Delta—the only girls in the local Chapter.

The girls of Northwestern are taking their places beside their brothers in this work of service.

RADIO CLUB

The Northwestern Radio Club was organized on November 28, 1923 for the purpose of furthering interest in radio development and research among students of the college.

The club organized with ten members, and since that time the enrollment has grown to nineteen. That much interest has been taken in the work by the members of the club, is shown by the fact that the club has one of the finest radio sets in the city. Many problems of the radio have also been worked out during the club sessions, and this information has been of valuable service to radio "fans" in Alva.

Although one of the youngest clubs in the college, it is looking forward to big things next year.

The organization of the Philomathean Club in Northwestern was a valuable asset to her already excellent group of societies. The purpose of the club is implied in the name Philomathean, which means "Seeker of Wisdom." The club was organized on December 2, 1914, with thirteen members. It has increased in efficiency in every way, and fulfills its duty to the utmost by developing the mental and social sides of life, for it's members.

We boast of having one of the most enthusiastic, "up and going" clubs found in any college. Also we boast of our scholars, musicians, athletes, and many various talented members.

In July 1921, thirteen students with two faculty members, organized themselves for the purpose of promoting scholarship and student activities at Northwestern. This organization is "The Scroll." Its membership now numbering twenty-eight, includes only Juniors of the College who have reached and maintained certain standards.

It is the policy of "The Scroll" to offer each year a scholarship at Northwestern for the member to the Freshman College Class who has, at the close of the year, made the highest ranking in scholarship and student activities.

Efforts are being made to become affiliated with the National Educational Fraternity, Kappa Delta Pi.

HOME OF NORTHWESTERN

Around the "Castle on the Hill" nestles the City of Alva

- a City of Homes
- a City of Churches
- a City of Culture

built solely for those who come to get their degrees and start on life's journey.

Scattered throughout the world, commanding the highest places in the society and commerce of their communities, are men and women who look back upon Alva as "Home." They know that in this college town ten thousand eyes are watching and rejoicing in their upward climb. We call them "Our Girls, Our Boys."

Come to Old Northwestern and the Alva Chamber of Commerce will do everything possible to make your college days ones of pleasure as well as profit; days that you can carry down the avenue of time with you as the green spots in your career.

"S E R V E"

"SERVE" was the Keynote of the creation of this business back in 1902.

"SERVE" has been and is today the rock upon which this business has grown.

"SERVE" is the word which is deeply impressed in the minds of our salespeople. They must serve with helpfulness.

"Serve" has a deep meaning to every associate of this Nation-Wide Institution. Those intrusted with the buying of our goods serve cheerfully.

"SERVE" is proclaimed simultaneously by the hundreds of thousands who buy from our several hundred department stores and it is a command which is always obeyed. The customer comes first. He must be served with satisfaction to him at any cost.

"SERVE" has been the creative force which has made this the World's greatest multiple of department stores.

"SERVE" is that which makes your buying from us a pleasure and a profit to you.

A man from the East boarded a street car in the South.
A Southerner got up to give a lady his seat.
The Easterner beat the lady to it.
The body will be sent back East for burial.

A CHRISTMAS PRAYER

O Mister Santa Claus
Your'e so very good,
Please send me alcohol
Without any wood.

We call for and deliver

Virgil Diller (in a shoe store)—“I would like to see a pair of shoes that would fit my feet.”

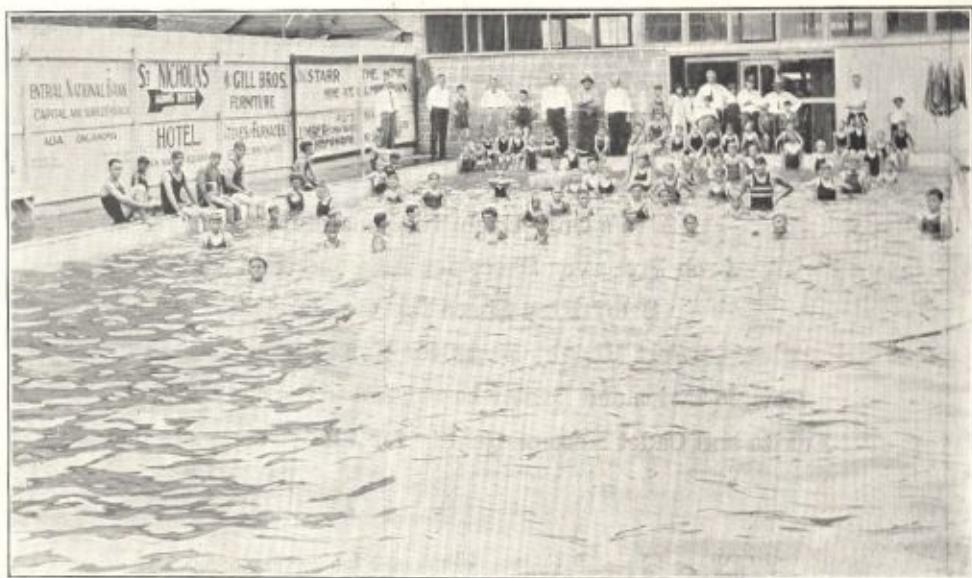

Clerk—“So would I.”

Miss Shockley—“Have you done your outside reading yet?”

Ralph—“No, its too cold.”

Mr. Hall—“What is the most important part of a car?”

Miss Tipton (Who walks to and from school)—“Yessir, the driver.”

The Picture above is of McGill's SWIMMING POOL; Its very Konvenient, Klean and Kool. Its the place for the students when their day's work is done; Where they throw off their worries and have some real fun. Now we know that this pool is a good place to go. Or it wouldn't be full all the time—don't you know. But the next best place is just next door—McGILL BROS. UP TO DATE FURNITURE STORE.

THE 1924 RANGER

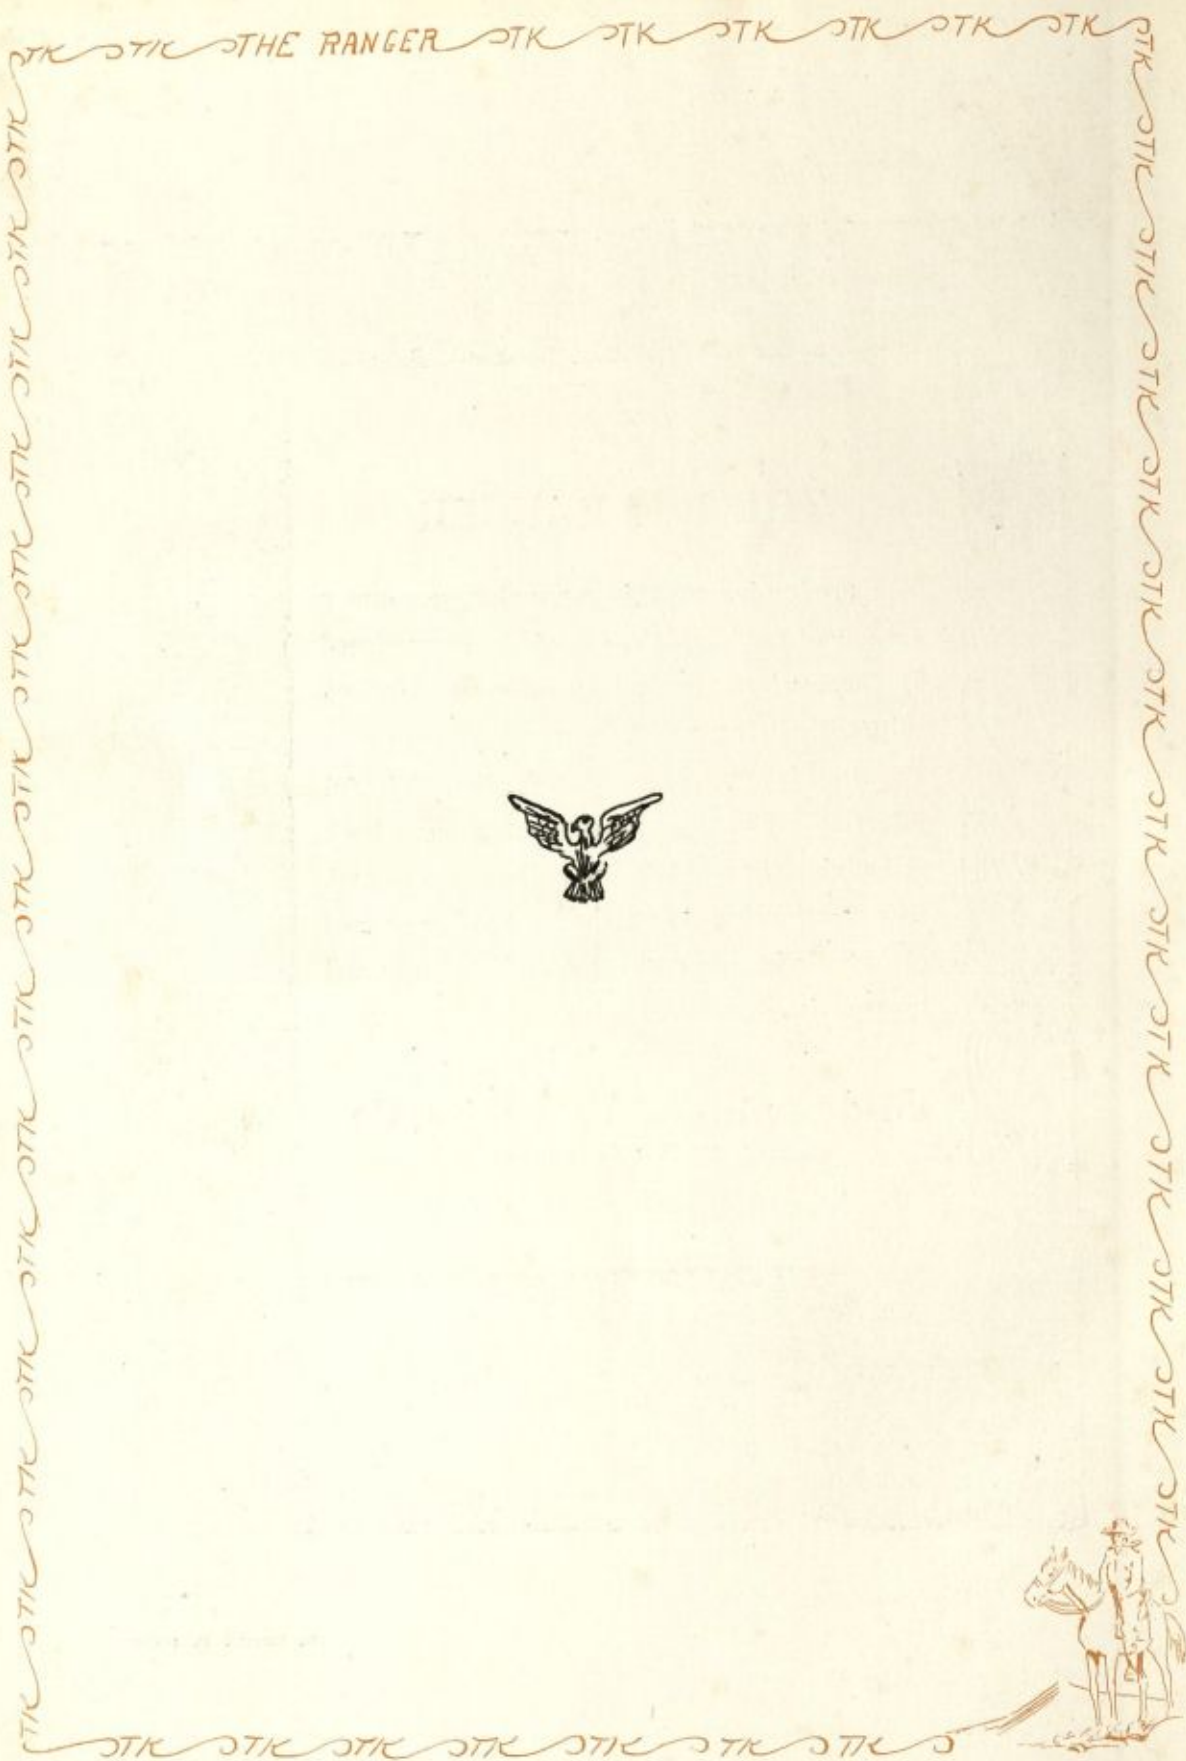

The production of this Annual represents a volume of work which can only be appreciated by those who have had an intimate relationship with it.

The Staff is to be commended for their faithful effort to present to the students a year book embodying the real life and spirit of the school. Our relationship, as engravers, has been a real pleasure and our success will be determined by your impression of this—The 1924 Ranger.
